PERSONAL PROFILE

Aspiring software developer currently enrolled on a NFQ Level 8 Higher National Diploma course in Computer Science(Software Development) provided by National College of Ireland(NCI).

I am actively seeking employment in which I can utilize my existing skills and learn new skills.

Prior to enrolling at NCI I was awarded a diploma in Software Development upon graduating from a coding bootcamp provided by Code Institute. This course covered a lot of content including HTML5, CSS3, UX Design, Github Pages, JavaScript, jQuery, APIs, Test Driven Development with Jasmine, DC.js, Python, HTTP, Flask, Heroku, SQL, MySQL, NoSQL, Stripe payments, AWS S3 and Django. The course was very practical and student assessment was based on individual development projects required throughout the boot camp.

Upon graduating from Code Institute I decided to further my knowledge in the area of JavaScript and enroll on a Microsoft Technology Associate(MTA) JavaScript course which I graduated from shortly before commencing my education at NCI.

TECHNICAL SKILLS

- CSS/CSS3
- Bootstrap
- HTML/HTML5
- Java
- Javascript/Jquery
- Python/ Django/ Flask
- SQL/noSQL

EDUCATION

Science in Computing (Software Development) - NCI **09/20 - 08/21**

Semester One Results: First Class Honours - Software Development (98%)

Qualification: NFQ Level 8 Higher Diploma in Computer Science (Software Development)

Modules: Algorithms and Advanced Programming, Computer Architecture Operating Systems and Networks, Data Structures, Distributed Systems, Introduction to Databases, Object Oriented Software Engineering, Software Development(Java), Web Design and Client Side Scripting.

Introduction to Programming Using JavaScript - Microsoft **07/20 - 09/20**

Qualification: Microsoft Technology Associate: Introduction to Programming using JavaScript

Full Stack Web Development - Code Institute **08/19 - 05/20**

Qualification: NFQ Level 6 Diploma in Software Development

Communications & Media Production - Colaiste Dhulaigh **09/08 - 06/11**

Qualification: Higher National Diploma in Media

Malahide Community School **09/02 - 07/08**

Qualifications: Junior and Leaving Certificate

EMPLOYMENT HISTORY

PFH Technology Group

04/20 - 07/20

- Providing meeting support for events hosted by clients.

Convergys/Stream Global Services

06/12 - 05/14

Technical Support Agent

- Providing technical support to clients for Xbox 360 and Xbox One console issues.
- Troubleshooting issues and resolving queries regarding client billing accounts.
- Awarded employee of the month award while working here.

SOFT SKILLS

- Strong communication skills: Some of my previous employment has involved interacting with clients through call centres.
- Dedicated with great attention to detail: One of my previous employment positions was as an Audio Visual Service Engineer. My duties in this role included troubleshooting and fixing various audio visual system issues logged by clients to ensure optimal system performance. My duties in this role also included carrying out preventive maintenance callouts for clients where I would test all possible scenarios which a user may experience with the equipment to identify any faults present in the system.

HOBBIES/INTERESTS

- Reading: My Amazon Kindle device is an essential device for me. I use it everyday.
- Playing guitar: I have been playing guitar for over 15 years and have played in many bands.
- Audio recording/post production: I enjoy making use of my home studio setup by recording and producing music with my equipment.
